# Welcome to the Arnold and District Camera Club Programme for 2010

The aim of the Club is to promote photographic interest within our area with a series of lectures, demonstrations, competitions and practical sessions.

We are a friendly crowd encompassing a range of skills and experience to share with all members. We recognize that everyone approaches their photography in different ways and ultimately develop their own unique style. To this end we can and should continue to learn from each other.

Thanks to lottery funding via Awards For All in 2007 we are well equipped to help and support members who have moved to digital imaging and the making of audio-visual shows.

The Club is a valuable source of both information and equipment to help you expand your photographic skills.

Do look out for our Annual Exhibition during February and March in the local Arnold Library that will show you the broad range and styles of our members.

You are welcome to come and sample our distinctive style at any of our meetings. So do try us at The Pond Hills Lane Community Centre, Pond Hills Lane, (off the lower part of Coppice Road) Arnold. Aim to arrive between 7:30 and 7:45pm.

So, whatever your style, choice of subject and choice of equipment you will find that Arnold and District Camera Club has everything you need.

# COMPETITION RULES

- 1 Two league competitions consisting of four rounds are held each year . One for prints and one for digital projected images.
- 2 There are two sections for each competition - intermediate and advanced. New members are free to choose which section to enter.
- 3 The winner of the intermediate section in the current year will be expected to submit entries in the advanced section for the following year.
- 4 Up to 2 entries may be submitted for each print competition round. Up to 4 entries may be submitted for each digital projected image round. The best 3 scores to count towards the league results.
- 5 Prints must be card mounted and may be up to 20“ x 16” (including the mount). Digital projected images need to be maximum 1400 wide and/or 1050 pixels high.
- 6 Any entry attaining first or second place may not be re-entered for any further league competitions.
- 7 Any individual projected image or print may only be submitted in two rounds of the league competition in any year.
- 8 Entries will only be accepted on payment of the door fee regardless of if you attend.

Please refrain from submitting very similar images in order to defeat the intention of rule 7, which is to avoid boring our audiences with countless showings of the same or similar images. This includes copying digital to print and vice versa.

Good luck to all those competing this year and enjoy all your efforts to capture that elusive, perfect image.

The Committee would like to express their thanks to those members who gave presentations last year. We would like to encourage all members to actively participate in club events and we offer our help and support to anyone who feels able to pass on their expertise for an evening (or even half an evening). As always we would appreciate feedback from members in order to identify which events you prefer so that we ensure that they are included in future.

Sarah Davis has volunteered to look at how we should archive Club material.

Please take note of the dates of the committee meetings. Any items for inclusion on the agenda should be put forward at the previous Club meeting. Remember this is YOUR Club.

## Chairman's Chat

One of the best hobbies in the world is how I often describe photography. The ability this medium has for recording spectacular colours and patterns has a wonderful uplifting effect. When you hold a camera, ready to take a photograph, you are witnessing a view that in a fraction of a second can be preserved for ever. Club photography is a way to enthuse about it to similar minded people. We all should be aware that if you like your own pictures, that is what really matters.... if anyone else likes them that's a bonus! and lets be honest--it's a great thrill to know your peers are impressed. Living in the UK means opportunities galore for photography. Outdoor alone gives us fine chances-- the ever changing weather combined with such varied landscapes are food and drink to most of us. Never let the photographic demon say 'there is nothing to photograph'. There always is. Make 2010 the year when you create something special.. and make sure we all see it at ADCC.
